

MandiCasa Diamond Cabinets

The finish is strengthened by a metallic base.

Sophisticated and essential, the Diamond luxury kitchen cabinets by MandiCasa are made in Italy with state-of-the-art machines to deliver designs that are impeccable in both function and aesthetic. Designed by Davide Bot, the cabinets blend clean lines and refined details, with the unique handle integrated within the door and combined with a flat or round channel.

Choose one of the smooth matte or embossed lacquers to highlight the minimalism of the cabinets or give them texture and depth through the brand's new Technolac Lux lacquers. This innovative finish contains a metal base that produces 3D effects perceptible to touch and sight. The result are scratch-resistant cabinet surfaces that play softly with light.

Diamond is a masterpiece of refinement; the product of modern technology and skilled craftsmanship to create contemporary luxury kitchens with a timeless soul. Like all of the MandiCasa designs, the Diamond cabinets can be personalized with a variety of kitchen accessories, internal units, and customizable storage solutions.

After training at the Milan Politechnic & Domus Academy, designer Davide Bot was a product designer for Versace for five years. He then went on to design for many fields, from small objects – such as porcelain and crystals for Rosenthal and glasses for Venini – to prints for fabrics and wallpapers and international exhibition spaces. He has also created complete furniture collections for several companies in the Italian area of Brianza, known around the world for its manufacturing excellence. Davide's design goal is to provide efficient, versatile and durable responses to the challenges of continuous change. His design projects are guided by a creative approach focused on the creation of experiences that generate memories and emotions through studied and functional paths.

MandiCasa offers a curated selection of made-in-Italy designs, including modern kitchens, bathrooms, closets, and interior doors. The company, founded by Dario Snaidero, features first-to-market exclusive collections alongside top quality products from a range of premium Italian suppliers.
